Financial Policy:

We treat every patient with equal care with or without insurance. Unfortunately, some insurance companies do not always cover certain established, routine and accepted procedures. We feel you deserve the best treatment possible and should not be influenced by the insurance company's policy. Since we do not have access to each plan's contract, it is difficult for us to know every limitation, deductible, or allowance for every procedure. It is important for you to know your policy's coverage. Our practice is committed to providing the best treatment for our patients and we charge what is customary and reasonable for our area. You are responsible for payment regardless of any insurance company's arbitrary determination for usual and customary rates.

I understand and agree that all services rendered me, my dependents, or others assigned by me to my account are charged directly to me. I further understand I am personally responsible for payment. If I suspend or terminate care and treatment, any fees for services rendered will be immediately due and payable. Should the fees for the professional services not be paid in accordance with the provisions herein, reasonable attorney's fees, plus applicable finance charges and costs provided by law shall be included in the computation of the amount due. Finance charges can be applied to all amounts that are at least 30 days past due at the rate of 1.5% per month (18% annual rate). If the account is in default and turned over for collection, I acknowledge that I will be responsible for all reasonable costs associated with effecting collection.

I have read the financial policy. I understand and agree to this financial policy.
